

## **Stay in Thailand June 2018**

The new school year started about half May in Thailand. We met the sponsored students and selected new ones for scholarship. Until now, already 388 secondary students were sponsored by Belgisaan : on this way, they had the opportunity for a better future.

We visited also the students of our “Food Program”, including some new ones. Until now, 75 primary students joined this project, and so they don't need to study with an empty stomach. At home, they have often a lack of food

The selection of the new sponsored students happens by the school in collaboration with Belgisaan. Also this year we have again some new sponsored students.

We visit daily the poor people, also the family of the new sponsored students.

We distributed clothes to the poor people in Bannarong

We visited again Niyom in Bannarong who was very sick. He had a lot of pain. When we were back in Belgium we heard that he died. His family thanks Belgisaan for the help.

During her first stay in Thailand, our member Joyce visited the family of her penfriend Nout in Bansakoo : they wrote letters to each other when they were in primary 6, 16 years ago, via the school and Belgisaan. Nout is now barber in Bangkok, but Joyce met her son and mother.

Kampeth is a new sponsored student of Belgisaan. He studies in secondary 4 in the school Tessaban 3 of Udon Thani. We visited his family. His father looks for plastic bottles in the rubbish bins to sell. His mother had a headoperation and is partly paralysed, but she still works at the market to earn some money. Sometimes it is not enough. Kampeth helps his mother often after school .

In the school Tessaban5 of Udon Thani, we received the visit of Mr. Surapol Jarmwutipreecha, representative of the people and mayor of Udon Thani (3th on the picture). He appreciated the work of Belgisaan and congratulated us.
